The International Symposium on High-Performance Computer Architecture provides a high-quality forum for scientists and engineers to present their latest research findings in this rapidly-changing field.

We are seeking proposals for workshops and tutorials on Saturday and Sunday before the main conference. Workshops and tutorials may be scheduled for a half day or a full day.

If you are working on a hot new research topic, consider organizing a workshop to help coalesce a community around it. Or if you have an exciting research project or research infrastructure to share, a tutorial can help get the word out. Please submit a proposal!

Please submit proposals to Shahar Kvatinsky <shahar@ee.technion.ac.il> by **September 3, 2017**.

Important Dates:

Proposal submission:

Sep 3, 2017
