

# Industry Session Call for Papers

*HPCA 2018*

## 24<sup>th</sup> IEEE International Symposium on High-Performance Computer Architecture

<http://hpca2018.ece.ucsb.edu/>

24 – 28 February 2018

Vienna, Austria

### GENERAL CHAIR

Michael Gschwind, IBM TJ Watson

### PROGRAM CHAIR

Yuan Xie, UC Santa Barbara

### INDUSTRIAL SESSION CHAIR

Valentina Salapura, IBM TJ Watson

### WORKSHOPS & TUTORIALS CHAIR

Shahar Kvatinsky, Technion

### STUDENT TRAVEL CHAIR

Ronald Mak, San Jose State U

### PUBLICATIONS CHAIR

Zehra Sura, IBM TJ Watson

### WEB CHAIR

Peng Gu, UC Santa Barbara

### PUBLICITY CO-CHAIRS

Jishen Zhao, UC Santa Cruz

Muhammad Shafique, TU Wien

Yinhe Han, ICT

### SUBMISSIONS CHAIR

Xing Hu, UC Santa Barbara

### INDUSTRIAL SESSION

### PROGRAM COMMITTEE

Arkaprava Basu, AMD

Matt Blumrich, Nvidia

Zeshan Chishti, Intel

Aamer Jelal, Nvidia

Sally A. McKee, Rambus

Alex Ramirez, Google

Dana Vantrease, Amazon

Ren Wang, Intel

Zeshan Chishti, Intel

The International Symposium on High-Performance Computer Architecture includes an industry session on the architecture of future systems technologies. The objective of this session is to provide a unique forum for industry participants to present their perspective on technical challenges facing future systems and discuss potential solutions. The discussion in this forum is expected to educate the wider computer architecture community on the challenges facing the industry and to encourage them to investigate solutions. The session will include a small number of papers selected based on depth and relevance to the HPCA audience.

Architects, designers and developers involved in some aspect of industrial computer systems design and development are invited to submit a paper describing new challenges, issues, and opportunities in the next-generation computer systems. Topics of interest include, but are not limited to:

- Processor, cache, and memory architectures
- Parallel computer architectures
- Multicore and multiprocessor architectures
- Impact of technology on architecture
- Dependable/secure architectures
- High-performance I/O systems
- Embedded, reconfigurable, and heterogeneous architectures
- Interconnect and network interface architectures
- Architectures for cloud-based HPC and data centers
- Innovative hardware/software trade-offs
- Impact of compilers and system software on architecture
- Performance modeling and evaluation
- Architecture for novel application workloads, such as AI or graph analytics
- Architectures for emerging technology and applications

Authors should submit an abstract by **September 17, 2017 11:59 PM CDT**. They should submit the full version of the paper **September 24, 2017, 11:59 PM CDT** at <https://easychair.org/conferences/?conf=ishpca2018>.

No extensions will be granted. The full version should be a PDF file following the submission guidelines that are available at the HPCA website. Papers should be submitted for blind review.

See the HPCA 2018 website at <http://hpca2018.ece.ucsb.edu> for additional information about HPCA 2018 and submission details.
